

RSU23 RETURNING STUDENT REGISTRATION

RSU 23 school district utilizes an online student registration and student data validation system for all new and returning student registrations. The system is a secure and “green” process, which allows the district to quickly obtain up to date information on your child. The online system will be used for all new and returning student registrations for student demographic, emergency and medical information and allow you to update that information prior to the start of the new school year. The system will also allow you to electronically sign the annual permission forms for school district policies such as the Technology Use Policy and School Handbooks. This online process replaces most of the hard copy student registration and permission forms used in previous years.

You will need to create an account. You should have, or will be, receiving an email, or letter, with a Snapcode for your child, as well as step-by-step instructions for creating your account and proceeding through the on-line forms. *If you have not received an email or letter, please contact your child’s school or the system administrator at RSU23Enrollment@rsu23.org to verify your contact information.*

Please note that once you have created an account, you will continue to use that same account each year for the yearly registration verification process for your student(s).

Please [click here](#) to begin the registration process for your student.

When completing the online form, please note that fields marked with a red asterisk are required fields and data must be entered. You will be able to save your information and return at a later time for submission if necessary. Your child’s registration will not be considered complete until the on-line registration form is submitted and other required forms are received by the school.
